REPUBLIC TROOPS REPEL ATTACK OF MANUEL'S MEN CHIEF ATTENTION

Portuguese Revolution Formidable, But Will Be Crushed, Officials Say.

LISBON, July 9 .- That the present revolutionary movement in northern Portugal is the best organized that has yet assailed the present republic was admitted by officials at the pal-

They insisted, however, that the movement to crush it out is fully as formidable and that there is no doubt of the ultimate outcome although there will be much fighting before

peace is finally restored. King Manuel, who is anxious to regain his throne, laid the plans for the present movement in his several conferences recently with Dom Miguel and the latter's sons.

Spanish Carlists Aid.

It is openly charged here that the Spanish Carlists are aiding the movement and that the Spanish government is winking at breaches of the laws of neutrality.

There was renewed fighting at Chaves last night. Under cover of the darkness the royalists attacked the town and were not repulsed for several hours, during which the losses on both sides were very large.

Attention might be called to the fact that in comparison with the stock exchanges of other cities Washington stands third in the way of high prices for local securities. It may also be said that Washington stands first by way of fluctuations and gradual advance in the value of its public utility securities. These facts have been worked out recently by one of the members of the stock exchange through a comparison of quotations from stock sheets during the past six months and for a year prior to that time. The garrison charged the attacking party and finally put it to rout, tak-ing many prisoners, including a num-ber of well-known royalist officers. Reserves Ordered Out.

The government force sent to attack the royalists at Cabeceiras-Basto have been re-enforced with artillery and it is announced will bombard the town Two other royalist columns are operating in the north, but they have

not been located according to the officials here.
An official statement issued today said the reserves have been ordered to report to the colors in the north and every effort will be made to put down the uprising immediately before it can spread to any other section of the country.
